*To the Honourable WALTER STEWART OWEN, Q.C., LL.D.,
Lieutenant-Governor of the Province of British Columbia.*

MAY IT PLEASE YOUR HONOUR:

The undersigned has the honour to present the Annual Report of the Motor-vehicle Branch for the year 1972.

ROBERT MARTIN STRACHAN
Minister

*Department of Transport and Communications,
Victoria, B.C., December 1973.*

REPORT OF THE SUPERINTENDENT OF MOTOR-VEHICLES, 1972

*The Honourable Robert M. Strachan,
Minister of Transport and Communications, Victoria, B.C.*

SIR: It is my honour to submit the Annual Report of the Motor-vehicle Branch for 1972. This Report deals with the activities of the Branch during the year 1972 and provides an accounting for the various aspects of licence issuance for the 1972 licence-year which ended on February 28, 1973.

The volume of business transacted by the Motor-vehicle Branch in 1972 is indicated by the following issuance totals: Motor-vehicle and motor-cycle registrations reached a total of 1,191,953, an increase of 7.43 per cent over the 1971 total of 1,019,523. It is interesting to note that the increase in motor-cycle registrations in 1972 amounted to 15.92 per cent for a total registration of 29,372. Trailer registrations reached a new high in 1972 of 156,143, an increase of 10 per cent over the 1971 total. Driver licence issuance showed 85,382 original licences were issued in 1972 compared to 82,867 in 1971. The total number of licensed drivers in British Columbia on December 31, 1972, was 1,326,038, an increase of 36,598 over the 1971 total. Male drivers numbered 812,309, amounting to 61 per cent of licensed drivers. Female drivers number 503,729, accounting for 39 per cent of the total. Revenue collected by the Motor-vehicle Branch from licences, permits, motor-vehicle inspections, and other services, such as in the payment of social services tax, amounted to \$46,203,672.22 in the 1972 licence-year, an increase of 10.25 per cent over the 1971 total.

Motor-vehicle accidents are dealt with extensively in this Report and statistical tables set out information gathered by the Branch from accident reports submitted by vehicle drivers. ~~There was a 12-per-cent increase in traffic fatalities in 1972. A total of 716 died from traffic accidents compared to 636 in 1971. Deaths per 100 million miles travelled on British Columbia highways amounted to 6.90 in 1972, compared to 6.51 in 1971. Accidents reported in 1972 amounted to 59,996, an increase of one-half of 1 per cent over the 1971 total. A point to notice is that while the number of accidents was only slightly higher in 1972 than in 1971, the level of severity of accidents was very considerably more, resulting in the 12-per-cent increase in fatalities. The increase in the numbers of persons injured in 1972 increased by 4 per cent from the previous year's total of 23,316. This Report notes there was an 8-per-cent increase in property damage loss in 1972.~~

Included in the Report are tables of offences and violations against the *Criminal Code*, Canada, the *Motor-vehicle Act*, and the *Motor-vehicle Act Regulations* as a result of the operation of motor-vehicles. The activities of the Driver Improvement Programme of the Branch are set out. This programme is designed to deal with persons who have committed offences under the various traffic laws. The activities of the Drivers' Examination Section are reported and there are interesting details noted about the programme of licensing commercial driver-training schools, training-school operators, and instructors.

Information about the Motor-vehicle Inspection Programme is included in the Report. During 1972 a total of 651,705 vehicles was inspected, which is an increase of 40 per cent over the 1971 total. The tables set out the causes for rejections of

vehicles when presented for inspection, and the rate of rejection is 35 per cent. The Report also mentions the number of authorized fleet-inspection stations which exist. These authorized fleet-inspection stations are limited to certain types of vehicles and the operations are closely supervised by the Motor-vehicle Inspection Division.

The Central Registry, which is carried out as a function of the Motor-vehicle Branch, is the sole repository in the Province for documents filed under the *Bills of Sale Act*, the *Conditional Sales Act*, the *Mechanics' Lien Act*, and the *Assignment of Book Accounts Act*, which concern all types of personal chattels. Indicative of the increased work load of the Central Registry is the fact that there was a 20.72-per-cent increase in the number of documents registered in 1972, compared to 1971. There was an 11.11-per-cent increase in the number of searches conducted, and similar rates of increase are indicated for the various services provided by the Central Registry.

The various activities of the Branch are dealt with under the following headings:

Licences.

Accidents and Convictions.

Driving.

Driver Improvement Programme.

Examination of Drivers.

Motor-vehicle Inspection.

Central Registry.

School Buses.

Permits for Flashing Red and Amber Lights, Sirens, and Theft Alarms.

Staff.

LICENCES

Motor-vehicles licensed in British Columbia in 1972 reached the total of 1,162,581, as compared to 1,084,184 in 1971, an increase of 78,397 (7.23 per cent).

Motor-vehicles and motor-cycles licensed in British Columbia in 1972 reached the total of 1,191,953, as compared to 1,109,523 in 1971, an increase of 82,430 (7.43 per cent).

Passenger-type motor-vehicles licensed in 1972 numbered 906,268, an increase of 50,182 over the 1971 total of 856,086. Commercial vehicle registration increased by 28,215. For 1972, the total for commercial vehicles was 256,313. In comparison, the 1971 total for commercial vehicles was 228,098.

The increase in motor-cycle registrations of 4,033 from the 1971 total of 25,339 to the 1972 total of 29,372 (15.92 per cent) indicates the general motoring public are still continuing to be interested in using the motor-cycle as a means of transportation.

Trailer registrations are still continuing to increase. The 1972 total of 156,143 is an increase of 14,165 over the 141,978 total of 1971. The camping and boat-type trailers account for the majority of this increase and would indicate that the residents of British Columbia are still continuing to enjoy and spend more of their leisure hours out-of-doors.

The comparative statement of licences, permits, etc., for motor-cycles and trailers covers the volumes in these categories during the licence-years 1965 to 1972.

DRIVERS' LICENCES

Original drivers' licences issued during the 1972 licence-year totalled 85,382, an increase from the 1971 total of 82,867.

Licensed drivers in British Columbia at the end of 1972 totalled 1,326,038, an increase of 36,598 over the 1971 total of 1,289,440. Male drivers comprised the major portion, numbering 812,309, while there were 503,729 females licensed. The

analysis of the drivers' licences on record as of December 31, 1972, indicating sex and classification, are shown hereunder.

PHOTO DRIVER LICENCE

The Photo Driver Licence Programme commenced on July 4, 1972, with the photographing of applicants for a renewal, duplicate, or original British Columbia driver's licence.

The new licence is printed on a poly-carbonate material for strength and durability and includes a colour photograph of the licensee against a blue background. The licence replaces the cardboard licence previously issued by the computer.

Installation of cameras and screens in 99 issuing offices was undertaken in May and June, together with the instruction of staff concerned. Cameras were not installed in four issuing offices situated in remote areas since the volume of driver licence issuance did not warrant the expenditure. Residents of these and other remote areas are issued the same type of licence marked "Valid Without Photo" which can be exchanged without charge at any camera-equipped Motor Licence Office.

The camera is designed to photograph the applicant and the application form simultaneously. Cassettes loaded with 35-mm. film are supplied to each office and this stock is replenished weekly. The used cassette is forwarded to Victoria by the office at the close of their issuing period, either daily or weekly, together with the applications for licence.

The film is developed and the licences are printed by Identicard Ltd. at their Victoria office. The licences are mailed after the details of the application have been entered on the driver's record.

The following totals show the amount of licences issued:

July	15,734
August	32,254
September	27,681
October	23,828
November	24,960
December	19,203
Total	143,660

MOTOR-DEALERS' LICENCES

Motor-dealers' licences issued by the Branch are required by individuals or firms whose businesses involve the buying and selling of motor-vehicles, motor-cycles, or trailers. During the 1972 licence-year, 1,274 motor-dealers' licences permitting the sale of motor-vehicles and trailers and 150 motor-cycle dealers' licences permitting the sale of motor-cycles and trailers were issued.

A prerequisite for the issuance of a motor-dealer's licence or the retention of such a licence is that an insurance bond be supplied to the Superintendent of Insurance in the amount of \$5,000 or security be filed with the Minister of Finance in a similar amount. The insurance bonds are filed with the Branch on behalf of the Superintendent of Insurance, and, in 1972, 457 dealers' bonds were filed, of which 263 were original bonds for new motor-dealers and 194 were replacement bonds. There were 417 bonds cancelled during 1972. Security was filed with the Minister of Finance by 17 motor-dealers.

A process of investigation is carried out for each new motor-dealer. Information in connection with the proposed operation, previous businesses, corporate formation, business intentions, premises, and compliance with municipal zoning regulations are considered before a licence is authorized.

DISTRIBUTION OF MOTOR-VEHICLES

The distribution of motor-vehicles in the various centres of the Province is always of interest. The following table gives information concerning the numbers of licences issued through the principal licence offices. Since vehicle-owners move frequently from one area to another, and vehicles are often sold to new owners residing in different locations from the previous owners, the table cannot be regarded as an accurate population count of vehicles in the various parts of the Province. However, the table does provide a guide as to the distribution of vehicles throughout the Province, and it is of use to groups concerned with community planning projects and development.

Summary of Passenger Motor-vehicle Licences Issued Under Motor-vehicle Act and Commercial Motor-vehicle Licences Issued Under Department of Commercial Transport Act, by Issuing Office, During the 1972 Licence-year.

¹ Vancouver—Includes issuance from Motor Licence Offices at 1730 West Georgia Street, 2410 Nanaimo Street, 6237 West Boulevard, Vancouver; 574 Minoru Boulevard, Richmond; 4705 Wayburne Drive, Burnaby; and mail order issuance to the Vancouver area from Victoria. Does not include issuance at North Vancouver. Issuance of 5,963 passenger plates and 2,734 commercial plates issued at Gibsons, Pemberton, Sechelt, and Squamish has been deducted.

² New Westminster—Includes mail order issuance to the New Westminster area from Victoria and issuance of 12,093 passenger and 2,645 commercial plates at Port Coquitlam, which accounts through New Westminster.

³ Victoria—Does not include mail order issuance to other areas or 1,980 passenger and 5,904 commercial plates for Provincial Government vehicles that operate throughout British Columbia. Issuance of 2,812 passenger and 1,466 commercial plates issued at Alert Bay, Bella Coola, Port Alice, Port Hardy, and Port McNeill, who account through Victoria, has been deducted. Issuance at Sidney, which also accounts through Victoria, is included.

REVENUE

Revenue collected by the Motor-vehicle Branch from licences, permits, motor-vehicle inspection, and other services, and in payment of social services tax, increased (10.25 per cent) to \$46,203,672.22 in the 1972 licence-year. The increase was \$4,294,701.77 over the 1971 total of \$41,908,970.45. Social services tax collections amounted to \$5,327,023.28, as compared to \$4,237,531.48 in 1971. These collections cover motor-vehicle and trailer taxes on transactions which do not involve licensed motor-dealers. The motor-dealers make their payment of tax collections directly to the Consumer Taxation Branch of the Department of Finance.

Offices of this Branch and Motor-vehicle Inspection (Victoria, Vancouver, Burnaby, and Richmond) collected 66.26 per cent of the total collections, in the amount of \$30,615,852.60. Offices of the Department of Finance, which carry out our licence-issuing service in areas not served by the Motor-vehicle Branch, collected the balance of 33.74 per cent. These percentages show no appreciable change on the 1971 licence-year figures.

The location of Motor-vehicle Branch offices are listed and the 1972 revenue collection at each office is shown:

REFUNDS

Legislation provides for refunding of licence fees in several instances where licences are surrendered to this Branch.

Refunds are made where a vehicle is removed from the Province, and where a vehicle has been burned, junked, or damaged beyond repair.

Refunds are obtainable by the seller on commercial-vehicle licences when vehicles are transferred. In these instances, the new owner is required to relicence the vehicle, based on the gross vehicle weight at which he intends to operate the vehicle.

Refunds may be obtained for vehicles located east of the Cascade Mountains, which are not operated in winter months (November, December, January). Due to the ability to operate vehicles on an all-year basis in practically all areas of the Province now, the applications for these seasonal refunds are declining each year.

The fee for the unexpired full years of the five-year drivers' licences is refundable under the following circumstances upon surrender of the licence to this Branch:

- (a) The licence has been suspended due to the failure of the licensee to qualify in a driver's examination.
- (b) The licensee has taken up residence outside the Province.
- (c) The licensee has died.
- (d) The licensee has voluntarily surrendered his driver's licence.

The following table sets out the number of refunds and amount of money refunded for the 1972 licence-year:

Refunds, 1972/73 Fiscal Year

Type of Refund	Number	Amount

ACCIDENTS AND CONVICTIONS

MOTOR-VEHICLE ACCIDENTS

The following table gives a summary of the accident frequency during the period 1963 to 1972:

Year	Motor-vehicles Registered	Number of Accidents	Accidents per 1,000 Vehicles Registered	Injuries	Deaths	Deaths per 10,000 Vehicles Registered	Average Property Damage	Deaths per 100 Million Miles	Fatal Accidents	Fatal Accidents per 100 Million Miles
1963.....	648,303	30,924	47.82	14,585	360	5.6	\$ 503.65	7.00	309	6.01
1964.....	700,048	38,368	54.81	16,911	393	5.6	523.39	6.90	345	6.06
1965.....	764,353	40,262	52.68	17,574	500	6.5	561.96	8.00	421	6.73
1966.....	817,348	44,177	54.05	19,449	520	6.4	592.91	7.60	445	6.51
1967.....	864,348	49,750	57.56	19,500	559	6.5	565.58	7.67	461	6.33
1968.....	917,872	58,300	63.51	20,945	574	6.2	570.87	7.36	460	5.90
1969.....	989,196	70,624	71.39	22,535	542	5.4	586.29	6.39	467	5.50
1970.....	1,024,738	60,778	59.35	22,568	559	5.5	731.63	6.70	471	5.64
1971.....	1,087,992	59,745	54.91	22,340	636	5.8	775.60	6.51	538	5.54
1972.....	1,164,749	59,996	51.51	23,316	716	6.1	863.44	6.90	602	5.80

The trend of increasing motor-vehicle accidents continues and this is evident now that we again have true comparison with the previous years' statistics. Due to a change in accident reporting during 1971, a false impression may have been given in our 1971 Annual Report. Injuries and deaths both increased considerably from a combined total of 22,976 in 1971 to a combined total of 24,032 in 1972.

Again, we must report a substantial increase in fatal accidents from 538 in 1971 to 602 in 1972. Similarly, the ratio of fatal accidents to number of miles driven is also increased.

Quite naturally, the aggregate property damage increased from \$47,438,491 in 1971 to \$51,703,378 in 1972, which is a similar increase to that from 1970 to 1971. With increasing costs, it is difficult to make just comparisons, but it is quite evident we can expect all our costs to increase for the privilege of operating a motor-vehicle today.

CONVICTIONS

The receipt of notices of convictions for driving infractions under the *Criminal Code* (Canada), the *Motor-vehicle Act*, and the *Motor-vehicle Act Regulations*, and the reports of violations of any law known as a "Traffic Rule," continued to supply information for inclusion in the individual driving records of each licensed driver in this Province. Access to these records is available by means of the driver's licence number or by the name of the driver. The retaining of these records and the furnishing of information which is invaluable for driver control is the main duty of the Driver Licence Records Section. The control which is made possible by these records is the responsibility of the Driver Safety and Improvement Section. In an endeavour to improve the driving habits of these drivers with unsatisfactory driving records we operate a Driver Improvement Programme throughout the Province.

In 1972 the number of convictions for infractions under the *Motor-vehicle Act* was reduced more than 66 $\frac{2}{3}$ per cent due to the fact that the whole Province finally came under the "Traffic Violation Law" which prohibited proceedings by Court action. These cases were dealt with by enforcement agencies forwarding Traffic Violation Reports to the Branch. It will also be noted from the following tables that there was a reduction in the number of convictions under the *Criminal Code* (Canada) and a slight increase in the number of offences coming under Traffic Violation Reports.

It will also be noted that the Notices of Juvenile Offences were considerably reduced, which is a reflection of the change in the juvenile age.

The total number of convictions for infractions under all statutes dealing with the operation of motor-vehicles in this Province was decreased 12.5 per cent in 1972 from 1971.

The following tables summarize the conviction reports under the various statutes dealing with highway traffic from 1969 to 1972, inclusive:

Convictions Under Motor-vehicle Act and Criminal Code (Canada), 1969-72

Offences	1969	1970	1971	1972
Under Criminal Code (Canada)—				
Causing death by criminal negligence, sec. 192 (as amended 1971) (new sec. 203)	6	7	7	6
Causing injury by criminal negligence, sec. 204				2
Criminal negligence in operation of motor-vehicle, sec. 221 (1) (new sec. 233 (1))	29	46	28	28
Failing to stop after accident, sec. 221 (2) (new sec. 233 (2))	1,142	858	867	757
Dangerous driving, sec. 221 (4) (new sec. 233 (4))	661	604	519	439
Driving motor-vehicle while intoxicated, sec. 222	153			
Driving while ability impaired (as amended 1969), sec. 222 (new sec. 234)	329	5,832	6,311	5,607
Driving motor-vehicle while ability impaired by alcohol or drugs, sec. 223	6,840			
Breath sample not provided (as amended 1969), sec. 223 (2) (new sec. 235)	42	319	894	842
Driving with more than 80 mgs. of alcohol in blood (as amended 1969), sec. 224 (new sec. 236)	324	4,920	6,878	6,246
Driving motor-vehicle while driver's licence under suspension, sec. 225 (3) (new sec. 238)	1,688	1,141	1,230	1,012
	11,214	13,727	16,734	14,939
Under Motor-vehicle Act—				
Driving without obtaining driver's licence, sec. 18 (1, 2)	4,183	3,392	3,806	1,295
Driving without subsisting motor-vehicle liability policy, sec. 18 (2a)		3,141	3,840	2,080
Driving motor-vehicle otherwise than as restricted on driver's licence, sec. 18 (6-8)	4,330	901	947	761

Conviction and judgment outside the Province, 582; grand total, 11,208.

DRIVING

DRIVER IMPROVEMENT PROGRAMME

During 1972 there was a considerable decrease in the total number of conviction notices and Traffic Violation Reports received by the Branch, which was reflected in statistics indicating the number of actions taken in an endeavour to effectively improve the driving habits of those persons who by their actions on the highways were considered hazardous.

It will be noted that during 1972 a total of 6,920 drivers was dealt with who had been previously suspended and previously warned, which was an increase of 12.4 per cent over 1971, when a total of 6,157 persons in this category were contacted. This would indicate that much of the unsafe driving is committed by persons who continually repeat their offences and must be dealt with by the Driver Safety and Improvement Section.

There was an increase in 1972 over 1971 of the suspension of drivers' licences of persons who failed to satisfy final judgment or on whose behalf payments of money were made by the Traffic Victims' Indemnity Fund as a result of an agreement or judgment against the driver. As provided under Part II of the *Motor-vehicle Act*, 582 drivers' licences were suspended in 1972 as compared with 544 in 1971.

Summary of Action Taken Under Driver Improvement Programme, 1972

Impaired, 11,853; total infractions received, 223,776; special restrictions, 1,719; juvenile offences, 4,623.

EXAMINATION OF DRIVERS

During the year 1972, the Drivers' Examination Section of the Drivers' Licence Division conducted the examination of 105,604 drivers, and 79,616 of this total were for original licences.

It will be noted in the chart shown below that 25.8 per cent of those drivers who were given examinations indicated on their applications that they had taken formal driver training, either under the High School Driver-training Programme or from the commercial schools. The increase in 1972 over any previous period in the number of new drivers being exposed to High School Driver-training Programmes and

Commercial Training Programmes is encouraging and reflects the growing interest in proper driver training courses.

During the licence-issue period of commercial driver-training schools, operators and instructors, 81 licences were issued, which is an increase over 1971, when licences were issued for 67 schools. Statistics dealing with the issuance of licences and the examinations of operators and instructors are shown hereunder:

Issuances, Licence-issuing Period, March 1, 1972, to February 28, 1973

	Schools	Operator	Instructor
Licences issued	81	77	183
Terminations	4	11	58
Suspensions	—	1	1
Reinstatements	—	—	—
	77	65	124

Passed	76
Failed	19
Total	95

Temporary Permits

Original and renewal permits issued	120
Temporary instructors as of February 28, 1973	14
<i>\$500 Security Bonding, 1972</i>	
Bonded by surety	62
Security on deposit (parity bond)	16
Security on deposit (cash)	3

Revenue

	\$
School licences (\$25)	2,025
Operator's licences (\$10)	770
Instructor's licences (\$5)	915
Total	3,710

The advent of classified driver's licence system in 1971 resulted in many examinations being given to drivers who wished to upgrade their classifications and obtain permission to operate more complex equipment.

MOTOR-VEHICLE INSPECTION

During 1972 the compulsory programme of motor-vehicle inspection was continued in the Victoria area and the Lower Mainland area. These areas are served by four inspection stations with a total of 13 lanes. The stations are located in Victoria, Vancouver, Richmond, and Burnaby.

The following is the number of inspections completed at each inspection station:

Inspection Station	Approved	Rejected	Percentage Rejected	Inspections Conducted
Victoria—				
1971.....	92,233	43,034	31.8	135,267
1972.....	95,038	37,690	28.3	132,728

1972.....	126,513	85,910	40.4	212,423

¹ Commenced operation October 1971.

Notices requiring the owner to present his motor-vehicle for inspection were mailed to 396,381 owners during 1972, of whom 128,515 required a second notice. Notification of suspension were given to 43,954 owners.

The following is a summary of vehicle inspection:

A total of 19 Authorized Fleet Inspection Stations has been established. Two of these stations inspect all types of vehicles and 17 are authorized to inspect regular trailers only. The authorization of two stations have been rescinded, one because inspections were not conducted to the standards of inspection as found in the Motor-vehicle Act Regulations, the other when his authorized inspector left the employ of the station operator. A total of 3,216 vehicles was inspected and approved at these stations.

CENTRAL REGISTRY

The Superintendent of Motor-vehicles is also known as the Registrar-General and is responsible for the operation of the Central Registry. Documents are recorded and searched under the *Bills of Sale Act*, *Conditional Sales Act*, *Mechanic's Lien Act*, and the *Assignment of Book Accounts Act* which concerns all types of personal chattels. In the case of corporations, personal chattels other than motor-vehicles are recorded with the Registrar of Companies Office.

1. The Central Registry accepted for registration a total of 345,760 documents during the 1972 calendar year for an increase of 59,462 (20.76 per cent) when compared with the 1971 calendar year. The Data Processing Centre was required to key-punch 523,155 lien cards, an increase of 83,831 (19.08 per cent over the

previous year). A large number of documents forwarded for registration now contain more than one vehicle or a vehicle(s) plus other goods and chattels.

2. The demand for search information continues to increase at a rapid pace. In 1972 the value of search fees amounted to \$202,681.25, an increase of \$20,273.50 (11.11 per cent) over the previous year. The fees for photo copies of documents on file with Central Registry amounted to \$2,851.90, an increase of \$177.65 (0.06 per cent).

3. The Central Registry administers approximately 2,100 Search Fee Accounts, which may be used to obtain information pertaining to motor-vehicles and drivers' records in addition to the regular lien searching. This Registry accounted for \$406,640 concerning requests for drivers' abstracts, an increase of \$40,388 (11.02 per cent) over the previous calendar year. On December 31, 1972, there was a credit balance of \$92,478.25 in this Search Fee Account, an increase of \$14,504.50 over the previous year.

4. The total revenue accounted for by the Central Registry in 1972 was \$1,563,445.15, an increase of \$226,986.15 (16.98 per cent) in the previous calendar year.

There is a steady increase in the number of documents submitted for registration and requests for search information. During 1972 the Offices of the Central Registry were remodelled, and extra telephone lines were added in order to meet this demand.

A statistical comparison with the 1971 calendar year follows, which gives a detailed report of the various activities of the Central Registry.

STATISTICAL COMPARISONS WITH YEAR ENDED DECEMBER 31, 1972,
TO YEAR 1971

January 1 to December 31, 1972

SCHOOL BUSES

Control over the use and operation of school buses engaged in the transportation of students to and from schools in the Province is the responsibility of the Superintendent of Motor-vehicles. The control extends to the setting of minimum standards for the construction and maintenance of school buses and provides for periodic inspection of school buses. This inspection is carried out on behalf of the Superintendent by Mechanical Inspectors of the Royal Canadian Mounted Police, the Motor Carrier Branch of the Public Utilities Commission, and senior Motor-vehicle Inspectors of the Branch. Motor-vehicle Inspectors at the four inspection stations operated by the Branch are appointed Mechanical Inspectors for the inspection of school buses. School buses in the Victoria area and Greater Vancouver area are inspected at the inspection station in the area or by an Inspector from a station. It is also necessary that evidence of satisfactory insurance coverage, in accordance with the carrying capacity of each school bus, be supplied to the Superintendent.

In 1972 the number of permits issued for vehicles to be used as school buses was 1,044 renewal permits and 139 permits for new vehicles, for a total of 1,183 as compared to the 1971 figure of 1,130. Of these permits issued, 32 were cancelled as the result of the lapse of insurance coverage or of poor mechanical condition. In 1972, school buses were involved in 58 accidents, of which 41 resulted in property damage only. Eight students and 22 persons other than students were injured in 17 injury accidents. There were two fatal accidents involving school buses where three persons other than students were killed in the year 1972.

PERMITS FOR FLASHING RED AND AMBER LAMPS,
SIRENS, AND THEFT ALARMS

The Superintendent may, under the provisions of the Motor-vehicle Act Regulations, issue permits to allow a vehicle to be equipped with a flashing lamp. The regulations specify that certain emergency vehicles, tow cars, and pilot cars may be equipped without obtaining a permit. The permits are required for vehicles such as public utility vehicles which must stop on a highway to repair power- or telephone-lines. In each case the permit is issued where a hazard exists and only with the approval of the local enforcement agency.

In 1972, 51 permits for flashing amber lamps and 13 permits for flashing red lamps were issued. In addition, two permits were issued to allow the installation of sirens and red flashing lamps on vehicles. These vehicles were usually ambulances or the personal vehicle of the chief of a volunteer fire department in a small community.

Three permits were issued for the installation of a theft alarm in a vehicle.

One permit was issued to allow police vehicles to install a device which would cause their headlamps to flash white light.

STAFF

The staff of the Motor-vehicle Branch remained somewhat constant in 1972 with an increase of only four permanent positions. Our 1971 permanent complement totalled 382, and this was increased by two clerical positions and two driver examination positions to a total of 386.

In addition to the permanent positions, this Branch also employed 67 temporary employees during the calendar year 1972. However, there was a total of 12 requisitions for employees outstanding as of December 31, 1972. Such a continual shortage of staff does have a detrimental effect upon the efficiency of any operation.

A good deal of assistance was once more obtained from the Liquor Control Board during the months of January and February 1972, our licence-renewal period. And again we express our sincere gratitude to the Chairman and his staff for the temporary assistance of 90 employees used throughout the entire Province. This trained personnel assisted our issuers and audit staff and we are aware that the work could not have been completed so effectively without their very able assistance.

Pressures continue to mount and work volumes continue to grow for all staff of the Motor-vehicle Branch. The present staff accept these added responsibilities and volumes in stride. It is a fact that Motor-vehicle Branch administrators, and I am sure the general public as well, sincerely appreciate every effort and challenge met by the staff of the Motor-vehicle Branch.

CONCLUSION

The scope and work requirements for the Motor-vehicle Branch for 1972 have been set out in considerable detail in this Report. A reader of the Report will have noticed the trend of increasing volumes of activity and it is reasonable to say that there will be a continuance of this trend in the years ahead. While there has been some increase in the number of the work force available to the Branch, these increases have not kept pace with the demands placed on the Branch by the public for service. It is going to be essential that in some particular areas of the Branch, including the Drivers' Examination Section, there will need to be a considerable growth in staff and, hopefully, 1973 will see some of these objectives attained.

It has been essential in the light of altering work requirements to retrain staff in more efficient methods of handling the business of the Branch. A number of employees have been enrolled in training programmes conducted by the Civil Service Commission and, hopefully, this trend will continue in the years ahead. The Branch continues to provide basic instruction for Drivers' Examiners and Motor-vehicle Inspectors, and both of these efforts have contributed to a much greater understanding of the activities and purposes of the Branch, so that employees in these fields may be better prepared to deal with inquiries from the public.

The Motor-vehicle Branch enjoys the continued co-operation of many persons and organizations throughout the Province and without whose help it would be most difficult to carry on our activities. The various departments of Government are extremely helpful and willing to assist us in the many problems that we jointly face. I am making particular mention of the long association enjoyed with the Attorney-General's Department and the members of that staff that we so frequently required to turn to for legal advice. The Branch enjoys a close liaison with your Associate Deputy Minister and the Weigh Stations Branch of your Department. I would be remiss in concluding the Report without mentioning the continued co-

operation we received from the Provincial Courts throughout the Province and all the enforcement agencies with whom we work and without whose valuable assistance it would be very difficult to meet our many obligations.

Respectfully submitted,

RAYMOND A. HADFIELD,
Superintendent of Motor-vehicles
